

What is Woosh launching for Christmas?

Later this month Woosh is launching a brand new product, which will be a New Zealand first and will revolutionise the way people buy and give broadband.

We think it will be a great Christmas gift for friends and family who don't yet have broadband.

Look out for it in Dick Smith Electronic Stores and on the Woosh website www.Woosh.com from 13th November.

New Woosh Broadband Plans

On 26th October we launched our latest and greatest plans. These sharp new plans have resulted in a free data allowance upgrade for many Woosh customers, and price decreases for others. Almost 20,000 Woosh and Quicksilver broadband customers have received a free data cap increase!

The best thing about our new broadband plans is that from now on, unlike some ISPs who force you to take their calling in order to get the advertised prices, all Woosh customers receive our best prices, and we don't force you to change your calling provider.

For existing customers the new broadband plans will take effect on during November. If you are receiving a free upgrade, you don't have to do anything to receive these benefits, this is an automatic upgrade - let's call it an early Christmas present from us to you.

Woosh, WiMax and Hamilton

Woosh has just announced an exciting new venture in conjunction with the Hamilton City Council.

Woosh plans for Hamilton to become the first mobile WiMax city in New Zealand. WiMAX is the latest international standard in broadband wireless service that progressive cities around the world are beginning to deploy. Woosh intends to see the entire city covered by the end of 2007 or early 2008. The new WiMAX services will offer substantial cost savings for Hamilton residents and could potentially halve the average household's telecom bill. Woosh does plan to overlay

WiMax onto its entire network progressively after the rollout in Hamilton.

Woosh at Big Boys Toys

Later this month catch us at the Big Boys Toys event, 10th - 12th November at the ASB Showgrounds, Greenlane, Auckland.

See the new million dollar supercar - Paganie Zonda C12S 7.5 and the NZ motorcycle show. Several new car launches are planned for the weekend along with great gaming products and luxury treats. This event is going to be a full on, hands on weekend, so make sure you attend and direct your friends and family to the Woosh stand to help them get Woosh and enjoy the same broadband freedom you do.

Expanding Coverage

Last month we expanded our Wireless broadband coverage into the Eastern Beach, Ellerslie and Otahuhu areas of Auckland. If you have friends or family living in those areas, please share the good news with them that they can now get Woosh Wireless broadband. With the launch of our sharp new plans, there's never been a better time to tell your friends about Woosh.

Staff Website Picks

Lastly something to keep you entertained and informed over the next month out our Staff Website Picks.

Got a Perfect Little Princess, and need the perfect little costume?
